RACE COURSE

20KM/1000M

PS1 — Mitsos' Guerrilla Trail (Antartiko tou Mitsou)

The challenge begins with the very first special stage! After reaching the start via a lift, riders enter one of the most demanding trails of the race.

Steep gradients and a highly technical ****rock garden****—filled with continuous rocks and rocky passages—demand precision, balance, and determination. Choosing the right line is crucial to maintaining your flow and clearing the section without having to put a foot down.

PS2 — Solinas Trail

The shortest special stage of the race offers a different experience, winding through a shaded forest on a dirt surface.

It is a fun trail, but it requires caution: traction can vary, and its steeper sections demand controlled braking and proper body positioning. A short special stage that keeps you on your toes until the very end.

PS3 — Rockercoaster Trail

The "endless" special stage! A complete enduro trail that combines flowy sections, rocky passages, steep gradients, berms, and small jumps, as well as ****two demanding climbs****.

Rockercoaster tests both your technical skills and your physical fitness. Here, you need to find a rhythm, maintain your focus, and pace yourself effectively.

PS4 — Stavros Trail

The final special stage is also one of the most enjoyable. It is a narrow, technical trail featuring steep gradients, challenging turns, and ****off-camber sections****—where the ground slopes toward the outside of the turn.
